

3 Styles in 1 Pattern - Tablet/Book Sleeve!

This Pattern was designed and written by @abigailscrochetedcreations. It's for personal use only. Please do NOT share, reproduce, or sell this pattern. Feel free to sell your finished project, but make sure to give credit to @abigailscrochetedcreations as the creator.

This pattern is a 3 styles in 1 electronic/book protective sleeve, and it is my first ever pattern! There are 3 styles to choose from, each one just adding a little something to the last. All 3 patterns are in US terms, and made to measure. Happy Crocheting! Make sure to tag @abigailscrochetedcreations on instagram with your finished projects, I'd love to see them!

Style #1: Simple Sleeve

Materials:

- Red Heart Super Saver (Or any worsted medium acrylic yarn, 1 skein is plenty)
- 5mm hook
- Yarn needle
- scissors
- Stitch marker use is valid but not required, as this pattern is built in rows

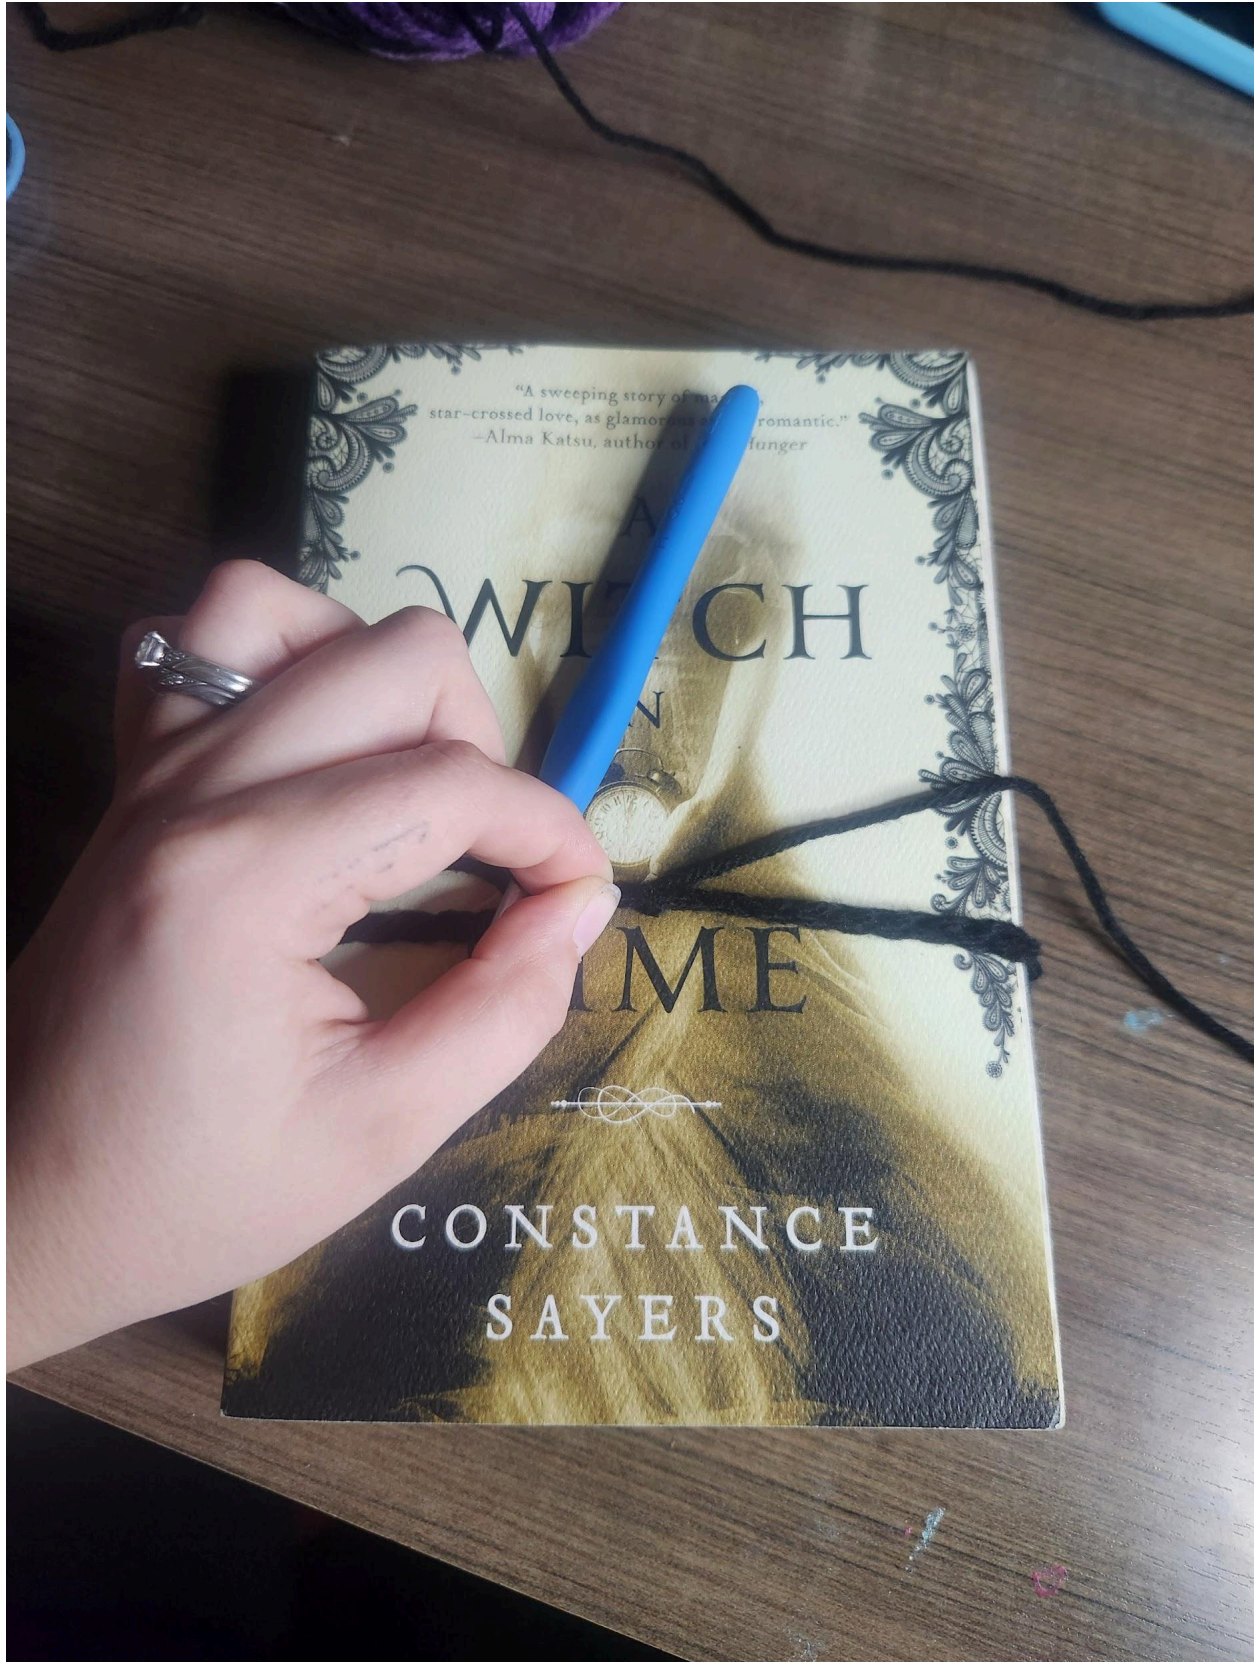

Abbreviations:

- Ch - Chain
- Slst - slip stitch

- Dc - Double crochet
- Tc - triple crochet
- FO - Fasten off

Pattern:

R1: ch any number of chs it takes to wrap around your tablet/book either horizontally or vertically, and be careful that the chain doesn't get twisted. See image below for clarification (I chose to do this horizontally, but that doesn't mean you have to. You'll get the same results either way)

Once your chains are long enough, slst into the furthest chain from the hook, and ch 2.

R2: Dc in the same st, and in each st around. Slst to join. Ch 2
Repeat Row 2 until your book/tablet fits inside.

For closing:
Add a row of sc, then slst to close.

FO, weave in your ends, and you're done! Feel free to add a motif, or any other customizations to make it your style!

Enjoy your finished sleeve!

Style #2: Every Third
